MONTHLY UPDATE ANNOUNCEMENT REGARDING PUBLIC FLOAT

Wenzhou Kangning Hospital Co., Ltd. (the “**Company**”) would like to update the shareholders of the Company (the “**Shareholders**”) and potential investors on the status of its public float.

Reference is made to the announcements of the Company dated February 5, 2026, March 2, 2026, April 9, 2026 and May 7, 2026 (the “**Announcements**”), respectively, in relation to the insufficiency of the public float of the Company. Unless otherwise defined, terms capitalized in this announcement shall have the same meanings as those defined in the Announcements.

To the best of the knowledge, information and belief of the board of directors of the Company (the “**Board**”), as at the date of this announcement, the public float of the Company is approximately 24.11%, which falls below the requirements of Rule 8.08 and Rule 19A.28B of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Hong Kong Stock Exchange**”) (the “**Listing Rules**”) that at least 25% (the “**Minimum Prescribed Percentage**”) of the total issued shares of the Company (the “**Shares**”) must be held by the public.

PROGRESS IN RESTORING PUBLIC FLOAT

As stated in the Announcements on Application for the Full Circulation of Shares, the Company has submitted an application to the CSRC as at August 21, 2025 in respect of the conversion of 9,286,359 domestic Shares into H Shares of the Company. Upon completion of the Full Circulation of Shares, the number of H Shares of the Company held by the public will increase by 9,286,359 shares. Therefore, the H Shares of the Company held by the public following the completion of the Full Circulation of Shares will be 26,258,059 shares in aggregate, representing approximately 37.30% of the Company’s total issued Shares (deducting 1,959,800 H Shares that have been repurchased but not yet cancelled) as at the date of this announcement. The Company will then meet the Minimum Prescribed Percentage.

The Company has been in active communication with the CSRC regarding the full circulation of Shares since December 2025, and originally expected that the CSRC would complete the relevant filing for the Full Circulation of Shares within March 2026. However, according to further communication between the Company and the CSRC recently, the CSRC indicated that, due to a significant increase in its workload during the recent period, it is currently unable to provide a clear timeline for the completion of the relevant filing for the full circulation of Shares.

On May 27, 2026, the CSRC sent a draft filing notice in respect of the Full Circulation of Shares to the Company for its verification.

The Company will continue to maintain close communication with the CSRC regarding the above matter, and will make further announcement(s) in relation to any material progress as and when appropriate in accordance with the Listing Rules. Should the filing in relation to the Full Circulation of Shares has not been completed before August 2026, the Company will consider discussion with substantial shareholders, directors and other non-public shareholders of the Company for an arrangement, by which they can dispose of a part of their H Shares to independent third parties in accordance with relevant laws, regulations and the Listing Rules (the “**Alternative Arrangement**”), in order to restore the public float of the Company. As of the date of this announcement, the Alternative Arrangement is still at the stage of preliminary consideration and assessment, and no binding agreement has been entered into. The Company will continue to consider the Full Circulation of Shares as the first choice, and will implement the Alternative Arrangement only when necessary.

The Company expects that the Minimum Prescribed Percentage under the Listing Rules will be restored by September 2026 at the latest.

BUSINESS OPERATIONS

As of the date of this announcement, the Company and its subsidiaries have continued their normal business operations.

PUBLIC FLOAT STATUS AND OWNERSHIP COMPOSITION OF THE H SHARES OF THE COMPANY

As at the date of this announcement, the public float status and the ownership composition of the H Shares of the Company are detailed in the table below:
